DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John E. Carlson on October 19, 2005.

1. The application has been amended as follows:
 - In claim 16, delete the ending period at the last line, and insert - - ; - -, on the next line insert - - wherein the second passage is between the first and second junctions and the second passage is looped about a first axis and is curved about a second axis not parallel to the first axis - -.
 - Cancel claim 25.

Allowable Subject Matter

2. Claims 1 – 7, 16 – 24 and 26 are allowed.

The following is an examiner's statement of reasons for allowance:

- The Examiner found the applicant's arguments persuasive, and further considers that the references of the Prior Art of record fail to teach, or suggest any obvious combination of the limitations discussed in the previous Office Action mailed on May 17, 2005, and further comprising the limitations of

(**With respect to claim 1**) comparing different length combinations based upon the same frequency and performing an analysis based upon a target frequency range; nor (**With respect to claim 16**) wherein the second passage is between the first and second junctions and the second passage is looped about a first axis and is curved about a second axis not parallel to the first axis; nor (**With respect to claim 21**) c) analyzing a ratio of average transmission loss over a selected frequency range to standard deviation of the transmission loss over the selected frequency range as a function of the lengths of the first, second and third passages and the first passageway; and based upon the analysis of the ratio in the step c), selecting lengths for each of the first, second and third passages and the first passageway for the Herschel-Quincke tube arrangement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
